

**TECHNICAL SPECIFICATIONS.**

Rated voltage .....1N~ 230 V  
 Rated frequency.....50 Hz  
 Rated power.....2650 W  
 Capacity of the frying tank.....8 L  
 Heating time.....not more than 25 min  
 Capacity of the cutter hopper.....7 L  
 Maximum output:  
 - traditional yeast doughnuts ..... up to 200 pieces per hour  
 - donuts made from a mixture..... up to 240 pieces per hour  
 Weight of the machine.....27 kg  
 Dimensions:  
 - length .....790 mm  
 - width .....550 mm  
 - height with the cutter .....600 mm

The machine is stationary Class I electrical appliances (IEC 60335-1).

The machine must be operated at the ambient temperature from +10°C to +35°C.

Ingress protection rating IP20 (IEC 60529).

On airborne noise emission, the A-weighted sound pressure level is below 70 db(A).

**DELIVERY SET.**

The delivery set includes:

1. Frying tank (1 pc)
2. Tubular heating elements (THE) unit (1 pc)
3. Tray with overturning and unloading mechanism (1 pc)
4. Control device (control unit) (1 pc)
5. Impeller drive (1 pc)
6. Cutter drive on a platform (1 pc )
7. Cutter piston with a removable <sup>1</sup> plunger (1 pc)
8. Cutter hopper with a removable <sup>1</sup> loose leaf (fixed three screw) (1 pc)
9. Filter (1 pc)
10. Stand with adjustment female screw (support) (1 pc)
11. Deflector (1 pc)
12. Slide (1 pc)
13. Operating manual (1 pc)
14. Packing set (1 pc)

<sup>1</sup> - Removable plunger pair (plunger and loose leaf), diameter:

<b>36 mm</b>	<b>40 mm</b>
